

ENVIRONMENTAL POLICY STATEMENT

A Gilligan (Coatings) Ltd is a surface treatment company specialising in zinc electroplating and passivates. We recognise that the activities that we carry out have impacts on the environment and that we have a responsibility to minimise our environmental impact.

A Gilligan (Coatings) Ltd recognises that concern for the environment is an integral and fundamental part of the company's business strategy, and to this end, has the Managing Director responsible to oversee and implement the policy requirements and represent environment issues.

As regards its future environment objectives, A Gilligan (Coatings) Ltd will:

- Minimise the creation of waste and dispose of all non-recyclable wastes through safe and reasonable methods.
- Educate, train and motivate its employees in environmental matters.
- Maintain procedures to deal promptly and effectively with environmental emergencies.
- Continually improving environmental performance - taking into consideration business objectives, employees and the local community.
- Encourage the use of environmental management systems amongst its suppliers and contractors.
- Make available this environmental policy by placement on notice boards, sending to suppliers and contractors and any other interested parties on request.
- Review energy usage and, where necessary, invest in improved energy efficient operations.
- Meet all environment legislation, regulations and other requirements the organisation may be applicable to.

Alan Gilligan

(Managing Director)
